Finally, the main event is about to begin.

Tsk! That mercenary bastard is doing all the fun things by himself.
It won't be all fun and games.

That doll has something scary inside it.

If you treat it like any other doll you could get eaten.

In..Intru..der...

...I will..eat it..
I was going to go to you...guess we'll be saving time.

Hey...Don't have such a foul expression on your face.

You chose this.

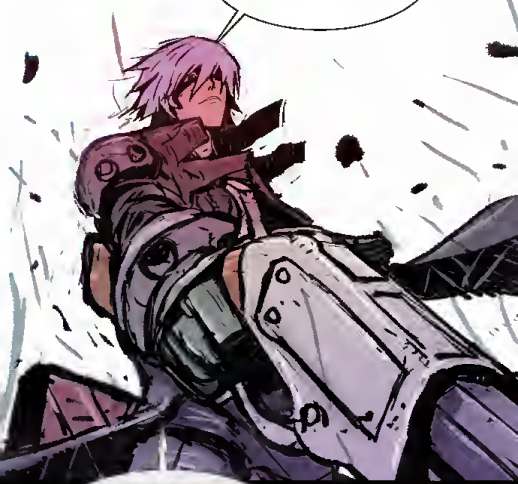
And you ate a lot as well...

SFX: GROWL X2

I'm sure you didn't want this kind of outcome..

but you have to take responsibility.

Once you become a doll, you can never come back.



It's better to die when there's some "humanity" left. It's more painful later on...

...I will..eat..

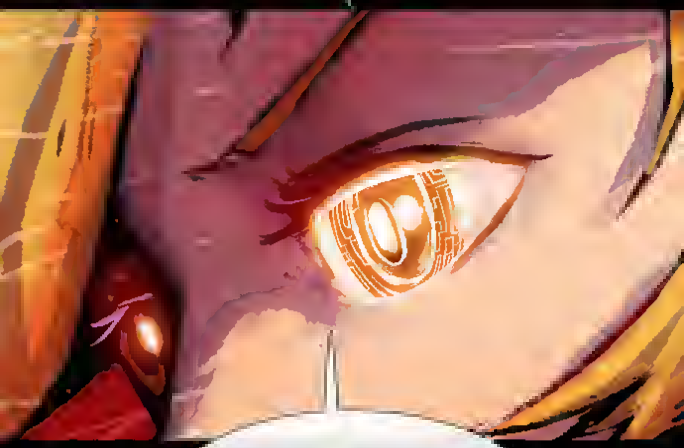
Trust me. This comes from someone with past experience....
He finished that off toughly. Got to give him credit for his combat skills.
Ah~~ I want to fight like that.
It's not over yet.

The crystals stolen today were B-classes..

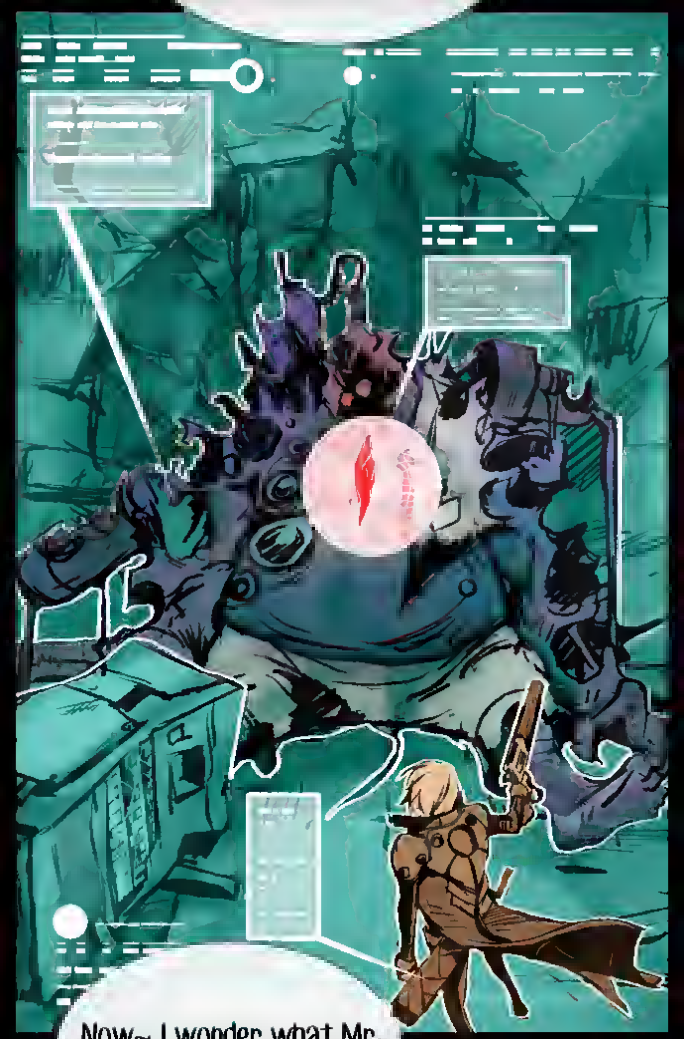


but they included the "RED CRYSTAL".

The "RED CRYSTAL" that was reconstructed for combat use?

Wasn't that considered too dangerous and disposed of?

Unfortunately.. It seems that the foolishness of the past is inside that doll's stomach.



Now~ I wonder what Mr. Mercenary will do now?

Huh..?!

Ah.. So annoying.

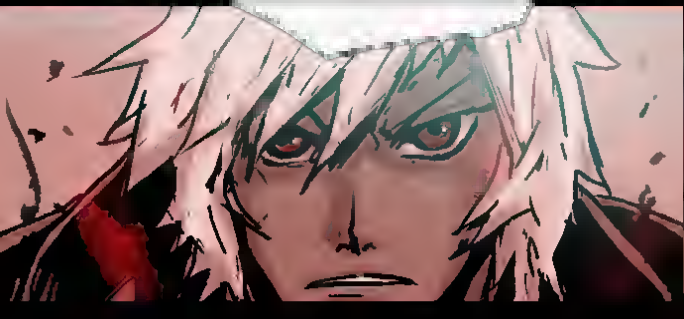
THE RED CRYSTAL!

Damn it! I should have known when they said they'll give me twice the commission price.

The RED CRYSTAL is the hardest to get rid of...



It's regenerating using the nutrition from the corpse.

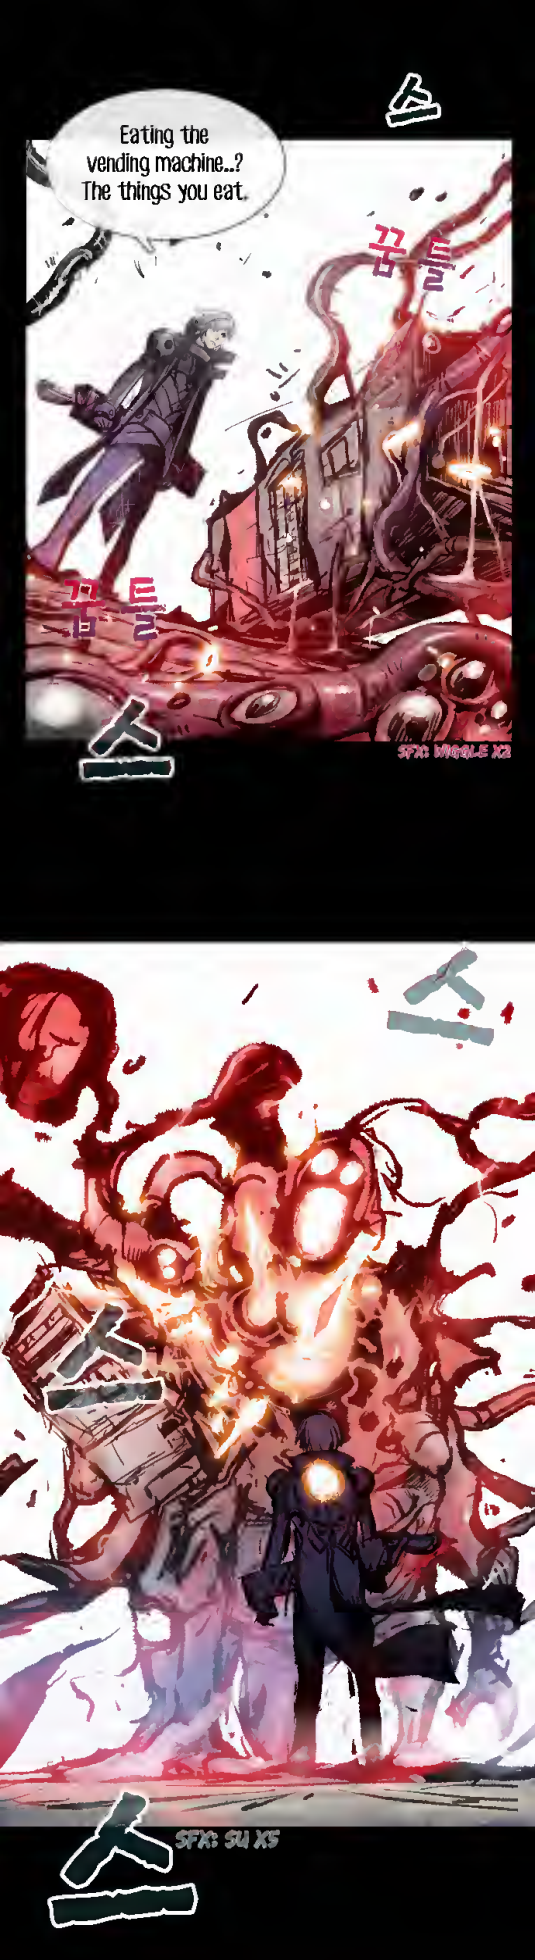
It's impossible with just the neutralization shots.. In this case only the SAMULKI can take this thing out...

TL/N: Samulki means "destruction" energy. It's the name of Crazy Dog's major weapon.



Eating the vending machine..? The things you eat.
